

HOSPITALITY AND TOURISM

Tourism is generally regarded as the act of travelling to a different location, for either business or pleasure purposes for at least 24 hours, but for no longer than one year. This can refer to long-distance travel, short-distance travel, overseas travel, domestic travel and various other forms. In addition to providing shelter and a place to sleep, many companies in the accommodation sector also provide a range of other services (food & beverages, entertainment and shopping).
