Success story

Student name: Tatiana Jilin
Course studied: AWS re/Start

Overview

We caught up with Tatiana at the end of their course and asked them a few details about their experience with TechTalent Academy, our amazing trainers and how the course has helped them achieve their goals.

Why join the course?

I wanted to gain new tech knowledge to apply in my current job.

What were you doing before?

I was a Digital learning assistant.

What did you enjoy on the course and what challenged you?

I was excited about APIs, Python and programming.

What skills from the course are you using the most in your new role?

Soft skills mostly.

How has the course impacted you personally and professionally?

I have learned a lot, survived another failure after not passing the exam which the instructor pushed us to take asap. What doesn't kill us makes us stronger, I'll definitely go on learning.

Describe the course in one word. Why this word?

Challenging

Since completing the course with us, Tatiana has received a promotion.

> TechTalent Academy was set up to solve two issues – create more diverse tech teams and to upskill and bring more people into the sector. We teach the skill set that industry needs and provide the opportunities for the many thousands of people who dream of working in tech.
